

# The many faces of metabolism: at the crossroads of Physiology and Disease

## SUMMER SCHOOL 2026 JULY 2nd & 3rd

### Conferences

July 2, 8:45 AM

**The Developmental Origins of Health  
and Disease: 35 years of development**

Susan E Ozanne

Head of the Institute of Metabolic Science,  
University of Cambridge

July 2, 12:05 AM

**Immunometabolic Crosstalk in  
Metabolic Disorders**

Emmanuel Gautier

NutriOmics, University La Sorbonne

July 2, 6:00 PM

**Sugar Rush: Pleasure, Addiction, and Metabolism**

**A Conversation Between a Neurobiologist and a Diabetologist**

Serge Ahmed (Research Director at the Institute of Cognitive and Integrative Neurosciences  
of Aquitaine, Bordeaux) & Samy Hadjadj (Professor diabetologist at l'institut du thorax, Nantes)

July 3, 5:00 PM

**How Glioblastoma Cells adapt their Metabolism when they meet their  
neighbors?**

Thomas Daubon

Department of Cellular Biochemistry and Genetics, University of Bordeaux

### Workshops

Upon inscription for  
master and PhD students

Science communication – Science-based game creation – Escape game –  
AI use for scientific writing – Graphic design

Bias 1, 9 rue Bias, Nantes 44000
